Revision 1

R1.1

I'd like to tell you about the Art Day which is coming up on the tenth of June. It's a day for families, so everyone's welcome – and that means children, too, of course.

This is a day for people of all levels of experience. Our teachers will guide the beginners; more experienced artists can work in groups or by themselves.

You don't need to bring any materials with you. We'll provide everything that you need. There will be enough paint, brushes, paper and card and modelling clay for everyone, as well as some new inks in an exciting range of colours.

The price of the day is just five pounds per person to cover the cost of the materials.

We suggest that you bring an apron to protect your clothes, or even better, that you wear some old clothes. You don't want to get even a drop of ink on something special as these new inks that we will be showing you are permanent and impossible to wash out. We also suggest that you bring a couple of bags or boxes to take your work home in.

We look forward to seeing you on the 10th June. Come along and enjoy yourselves!

R1.2

B: Well, yes, kind of.

A: What do you mean?

B: Angie cut it for me.

A: Oh, right...

B: What do you think? Is it OK?

A: I'm not sure... It's not very smart.

B: No? Oh, dear. I need to look smart. I'm going to stay with my mum's family in France tomorrow. They live somewhere near Paris, in a small town, Senville or something – I can't remember exactly. It's on the river Nonette, I do remember that.

A: I've never heard of it. So, is all your family going?

B: No, I'm flying to Paris by myself, and my aunt's going to meet me at the airport.

A: Is your aunt French?

B: Yes, she is and she doesn't speak much English, so I'll be practising my French for the next few days!

A: Wow, what a brilliant opportunity! Nobody in my family speaks French and I certainly don't know any French people.

B: I know, I'm very lucky... But what about my hair? What do you think I should do?

A: You could go to the hairdresser's and pay for a proper cut.

B: Hmm... No, I haven't got any money with me now, well, only a little bit, and there won't be enough time for an appointment in the morning.

A: Why don't I try and do something to make it look better?

B: I guess that would be better than doing nothing...

R2.2

Hello. My name's Theo Martin, and I'm going to talk to you today about three of my paintings that are here at the Skylight Gallery. They're here for six weeks, then they'll be going to a permanent collection in a gallery in Tokyo, Japan. I don't usually speak in public, but the owners of the Skylight Gallery have asked me two or three times to give a short presentation, so here I am today. And it will be a short presentation, I promise you! I have no intention of talking to you for hours and hours about my paintings!

I'll start with this painting, 'Forest Green (One)'. I painted it about two years ago from memory. When I was a boy I used to love a place called Dean Forest. I hadn't thought about Dean Forest for years. Then, one day a few years ago, I was walking in a wood in Canada and vivid memories of Dean Forest suddenly came back to me. 'As soon as I get back to my studio I'm going to paint Dean Forest,' I thought. And that's exactly what I did. I didn't use photos. I just painted my memories onto the paper. I've painted about fifteen other paintings of Dean Forest, but this one is my favourite.

This next painting is called 'Girl'. It's a painting of my daughter Libby. I did it about 20 years ago, when Libby was six years old. She was sleeping on the sofa and I decided to paint her. Ten minutes later she woke up, got off the sofa and left the room. The moment had gone! But I finished the painting in the studio. I'd taken lots of photos of Libby, so I had pictures that I could work from.

Finally, I'll say a few words about this picture, 'Dots and Lines'. I painted this when I was at Art School more than 30 years ago. It stayed in a cupboard for many years, but recently it's become one of my most famous pieces of work. When it's in the gallery in Tokyo it will have been in galleries in eighteen different countries.

I'll tell you some facts about 'Dots and Lines'. It weighs 76kg. It has 50,000 red dots on it and 100,000 black lines. And I'll tell you a secret, too – I hate it! But other people like it, it seems. I don't understand why, but the painting has a life of its own now, I suppose – and it doesn't need me any more!

Welcome to the Abbey Guest House. It's lovely to see you all here, and I hope you've all had a good journey.

I'd like to invite you to join us for the Welcome Dinner this evening. It's at eight o'clock in the Peacock Restaurant.

Previous guests have told us how pleased they were that they'd gone to the Welcome Dinner. They said that they'd made new friends who would be their friends for ever. I hope I can persuade you to come. It's only an extra ten pounds per person.

Now, I'll quickly remind you of the normal meal times. We serve breakfast between six thirty and nine o'clock in the Garden Room. Lunch is in the Waterlily Room between twelve o'clock and two o'clock. The restaurant is open between six o'clock in the evening and midnight.

Those of you who would prefer to have breakfast in your room, please tell reception.

There are lots of local attractions in the area. Here are just a few:

It's a twenty-minute walk to the world-famous Botanical Gardens, which are definitely worth seeing and free to enter. I know that many of you are keen to improve your language skills. Every morning in the Market House you can listen to local storytellers telling traditional stories from this country. You will also be interested in the Language Café on Park Street. This is a great place for anyone who'd like to practise speaking the local language with local people. Finally, don't miss seeing the Fireworks Display every evening at ten o'clock in the main square.

It takes about 30 minutes to walk to the city centre from here. There are regular buses throughout the day which leave from just outside the Guest House.

Some of you have asked about renting bicycles. This is easy for us to arrange and you'll find that it's a great way to get around the area. One word of warning, though. Avoid cycling into the city centre between eight thirty and nine thirty in the morning and four thirty and five thirty in the afternoon because the traffic is very busy at those times, and the roads can be dangerous.

'Help!' he shouted. 'I can't get down!' He sounded really scared. I hate heights. I've never been able to go up tall buildings because I can't look down. It makes me feel sick. I can't even stand on a chair!

But when I heard Charlie's frightened shouts I felt different, and I was able to climb up to him. I managed to free his shirt and we climbed down the tree together.

I hope the experience has changed me for ever. Will I be able to go up tall buildings now? I don't know, but I hope I can. I'd like to try rock-climbing, too.

Billy

It was really silly. I washed my hands and I picked up the dish and it just slipped out of my hands and smashed on the floor. I don't know why I didn't just dry my hands before I picked the plate up. I feel terrible – such a silly accident, such a waste of money. Fortunately, Suzy told me where she bought it, so at least I can buy another one to replace it.

Louise

I thought I was ready for the exam, but then when I turned over the paper and looked at the questions, my heart sank. There were questions on topics that I hadn't revised at all, and I knew I wasn't properly prepared. On top of that, I'd stayed up late the night before because I was worried about the exam, so I felt really tired because I hadn't had a good night's sleep.

Iris

Everyone says the wedding was absolutely amazing, but I couldn't be there, because I was stuck in my hospital bed. Would you believe it, of all the days to be in hospital? It was just my luck to fall and break my arm on that very morning. I've seen lots of photos and someone took a video of it too, which I'm really pleased about, but it's not the same as actually being there, is it?

B: If you watch TV, your headache will get worse. Go and lie down upstairs and if you don't feel better by tea time I'll bring you some painkillers.
A: OK.
2 Which problem does Ed need to sort out?
Yeah, I'm going to have to pay quite a lot of money to get it sorted out. Everything would have been all right if there hadn't been all this broken glass on the road. Looking back, it probably would have been better if I'd just ridden over it and got a puncture. But I was trying to avoid that, and I was going quite fast, so I swerved and lost control. I'll go and buy the woman a new pot and some new plants, unless she'd rather I just gave her the money to replace them.

B: No, I'd go running every day, something like that.
A: Right.

- Catherine:** Oh, they're not so bad, are they? I sometimes get a drink or make a quick phone call when the advertisements come on. They don't really bother me.
- Dave:** But they're so loud! Perhaps if they were quieter, they wouldn't be so annoying!
- Catherine:** If the advertisements really annoy you so much, you could switch the TV off or turn the sound down...
- Dave:** I don't know... If I switched the TV off for the advertisements, I'd probably forget to switch it back on again!
- Catherine:** Anyway, I don't think advertising's such a bad thing. I wouldn't have bought these trainers if

- I hadn't seen them advertised in a magazine. I'm glad I got them. They've been really good.

- What's the difference between life for people in my country today and life for people in my country years 50 ago? Are people happier now than before?
Hmm, well I think people work harder today than they did in the past. People seem to work all the time now in my country – at the weekend and in the evenings as well as during the week.
Communication is very different nowadays compared to 50 years ago. People communicate more now, but they don't communicate better. They just say the same things to lots of different people – by email, on the phone, on the internet, and so on.
I suppose people communicate more openly now than in the past, because it's easier and more normal for people to talk about their feelings than it used to be.
We eat a wider variety of foods in my country these days – food from all around the world. But do we eat better than we used to? I don't think so. People used to eat fresh food every day, but now they eat more convenience food – like takeaways and frozen food – and it isn't as good for you as fresh food.
Life is more comfortable now, that's certainly true. There are lots of things that make life easier, and healthcare and medicine is much better now. But are we happier now? No, I don't think so. I think people were as happy – and sad – 50 years ago as they are today. They just found their happiness in different ways.

Hi, I'm Heidi. I'm a very experienced fitness coach and I'm going to tell you about some cardio-vascular activities – physical activities that are really good for your heart and lungs. Are you bored with the usual suggestions for a good cardio-vascular work-out, like running and swimming? There are plenty of other things you can try, and here are three of them.

The first is skipping. Perhaps you remember jumping with a skipping rope with your friends when you were a child? Well, these days, skipping's becoming more and more popular as a fitness activity. It's a great way to make your arms and legs stronger, and it's such a cheap and simple way to exercise, too! All you need is some space – preferably outdoors – and a skipping rope that's the right length. If you stand on one end of the rope and pull it up, the handle should reach to your chest.

There are different kinds of jumps and steps that you can try, and with a regular skipping programme you should find yourself getting fit quickly. A word of warning, though – skipping is a high impact sport. It isn't the best activity for people with weak knees or elbows.

Spinning is another form of exercise that you could try. This is basically cycling on fixed bicycles in a gym with a group of other spinners. The instructor uses music and well-chosen words to motivate you through the session. A small computer attached to the bike shows you how fast you're cycling and how much energy you're using.

Of course, spinning's never going to be as exciting as cycling outdoors in the fresh air, but the main advantage is that the instructor will guide you through a carefully planned routine. And, of course, it never rains at the gym, so you'll always be able to go to your spin class!

The third activity you could try is aqua – or water – aerobics. It's similar to traditional aerobics, in which you move in time to music, but you do the class in a swimming pool. The water makes the movements more difficult, so you have to work harder. At the same time the movements are slower and gentler than in a normal aerobics classes because the water supports your body. For this reason, water aerobics is good for anyone who has problems with their knees and elbows.

Here are the answers to the Natural World Quiz, so get ready to find out how many your team got correct. For the first three questions, we're thinking about continents. According to scientific discoveries it seems that no horses lived in Australia during the Ice Age, so Australia is the first answer. There are deserts in every continent except Europe. And spiders – these live in every continent except Antarctica, so if you're not a fan of spiders then that's the place to live! The next three questions are about losses to the natural world due to human activity. Deforestation – cutting down large numbers of trees for industry – has resulted in the loss of some bird species, and some species of animals, too. Some kinds of tiger have been lost for ever because of hunting, and in the future some species of shark may become extinct because of overfishing – the food industry taking too many fish out of the sea, in other words. You need a season and a time of day for the next two answers. Turtles, like many animals, hibernate during the winter. And most birds fly during the night when they are migrating, despite the fact that they usually fly during the day at other times. Tails, now, and we're thinking about what different animals use them for. Now, some lizards use their tail as a weapon to protect themselves against attackers. And, of course, all fish use their tail as a propeller to help them swim, like the propeller at the back of a boat. How long do different animals live for? Chickens – about 20 years. Rhinos – about 50 years. And the Giant Tortoise – they often live until they're an amazing 150 years old. Finally – carnivores, herbivores and omnivores: what are they? Well, herbivores only eat plants and carnivores only eat meat so omnivores is the answer to question 14: omnivores eat plants and meat. Most carnivores and omnivores have big teeth for eating meat, but things aren't always as they seem in the natural world. With their big teeth hippos look like carnivores but they are actually herbivores. And you wouldn't expect a plant to be a carnivore, but the Venus Flytrap is. Its leaves are a bit like a mouth – they close when a fly walks on them, and the plant 'eats' the fly. The final answer, then is carnivores, and that's the end of the quiz. How many correct answers did you get?

Ted: I was given this old box that belonged to my great-grandfather. He was a photographer.

Ted: He was a journalist, so he was often sent to different countries and he took all different kinds of photos. A lot of his professional photos were sold by one of my aunts last year, but this box was kept in the family because the pictures are more personal.

Sam: Oh, right.

Ted: Look at these photos. I'm pretty sure they were taken in Japan. He loved Japan, and he was offered a good job there, but he didn't take it. I don't know why.

It had been a busy morning. I'd been to the shoe shop (where I'd just had my feet measured for the first time in ages!) and then I'd been to the hairdresser's where I'd had my hair cut and styled in a new way.

Then, when I was riding my bike home through the park, I rode straight into an enormous rock that was lying on the path. I flew off my bike and over the handlebars and landed on the path on my right arm – which was really painful. I managed to push my bike home with my good arm, but my bad arm was still really hurting, so Mum took me straight to hospital where I had it x-rayed. Fortunately, the doctor told me it wasn't broken, but I had it bandaged by a nurse and they told me to rest it for a few weeks.

The front wheel of my bike is quite badly damaged, but I'm having it repaired tomorrow.

I think I didn't see the rock in the park because my hair was over my eyes, but Mum's worried that I might have a problem with my eyes. She says I have to have my eyes tested before I go on my bike again!

Welcome back to school, everyone. I hope you've all had a really good holiday.

Have you noticed what's different about the school?

Classrooms B9 and B10 were knocked down at the beginning of the summer holidays and three new classrooms were built in their place. I'm sure you'll agree that the new buildings look much better.

Some bad news next, I'm afraid. Two windows in C Block were broken during the holidays. Someone was seen running away from the school, but nobody was caught. Fortunately nothing was stolen from the school, and the windows were fixed the next day. However, it was a very wet night and some computer equipment was damaged by the rain. We will replace the equipment as soon as we can.

More good news now. Work is continuing on the new swimming pool, which will eventually be used for swimming lessons by everyone in the school. Most of the work has now finished, and the roof is complete. I hope the pool will be filled by the end of the next week.

Thank you to everyone who entered the holiday Short Story Competition. My colleagues and I have enjoyed reading your work. The winners of the holiday Short Story Writing competition will be announced on Friday, and the winning stories will be printed in the school magazine next month. Over the next few weeks, everyone in the school is invited to have their eyes tested by the school nurse. This is a free service. Pupils who don't want to take this opportunity must bring a letter from their parents.

Please remember to keep bringing old plastic bottles to school. They are taken to the recycling centre and – for large numbers of bottles – we get money for the school.

Finally, everyone, I'd like to...

Good morning. Welcome to the Museum of Film.

We have all sorts of things for you to see here, including two fabulous collections, three cinemas and a small working film studio.

Before you enter, I'm just going to take a few minutes of your time to tell you some things about the museum.

Can you see this small statue here? This was given to the Museum of Film by Prince Leo in October 1989 when he opened it.

All the work here is done by volunteers. Unfortunately, in May 2006, the museum had to close due to lack of funds. In January 2007, the government started funding the museum and we were able to open again. We rely on this government funding as well as public donations – so please give generously if you can. We hope the museum can stay open for years to come.

We regularly have Directors in Residence here at the museum. These are directors who come and work at the museum for six months. Have you seen the film 'Open Door'? This was made by Anna Lake when she was working here as the Director in Residence. Our current director is Jim Bennett. You can hear a talk by him at eleven o'clock this morning. It's called 'The Way I See It'.

Our famous collection of wax models of film stars is on the second floor. For small fee, our photographer will take your photo with your favourite star!

We have a small studio here, where you can try being a film director. Your mini film will be edited, and all day the mini films will be shown on the screen in the museum café. At the end of the year, some of these films will be chosen to be included in the People's Film Project. You never know – your film might get chosen!

In the basement we have a new exhibition called 'The Real Thing'. This is a collection of clothes and accessories which actors actually used in famous films. You'll be surprised at some of the things we have!

One more thing, before you begin the tour. As you know, we have three working cinemas here, from different times of film history. I'm afraid Cinema 21 will be closed between 10 o'clock and midday today while a new screen is installed. We're sorry for the inconvenience.

Thank you very much for listening. Enjoy your visit.

So, what about prices? Regular membership, which includes use of the gym and swimming pool at any time, will cost you just £6.00 a week. If you have regular membership and you want to do a fitness class, you'll pay an extra £3.00 per class. Or, you might be interested in our Sports Plus pass. At the Drayton Fitness Centre we look after our members' health very carefully. If you decide to join, you must have a health check before you begin any activities with us. A professional health adviser will give you a full medical consultation, and this will include having your blood pressure checked.

Well, I hope I've persuaded you to think about getting membership with us. One last thing I have to say: the gym will be closed next week because we're in the middle of a modernization programme.
